

# EasyDesk Tray

Universal robot workstation table that combines a compact footprint with a spacious work surface.

## Introduction

EasyDesk is a universal robot workstation table — a spacious yet compact robot workbench featuring three different tabletops for maximum versatility. Compatible with 99% of modern collaborative robots, EasyDesk helps manufacturers increase production, automate processes, improve profitability, and reduce labor costs.

This modular robot workstation is ideal for CNC machine tending, welding, assembly, polishing, deburring, grinding, and quality control tasks. Designed as a user-friendly cobot workstation, EasyDesk supports all CNC machines, conveyor belts, and major cobot brands, simplifying automation and accelerating a wide range of industrial production applications.

### Suitable for 99% of modern cobots

EasyRobotics products are tested and compatible with 99% of modern collaborative robots.

### Customizable tabletop parts-tray

You can choose standard 94x Ø0-70 parts-tray or customize it for your requirements.

### Re attachable mount plate

The place of attachment of the cobot's mount plate can be changed along the entire length of 3 working sides.

---

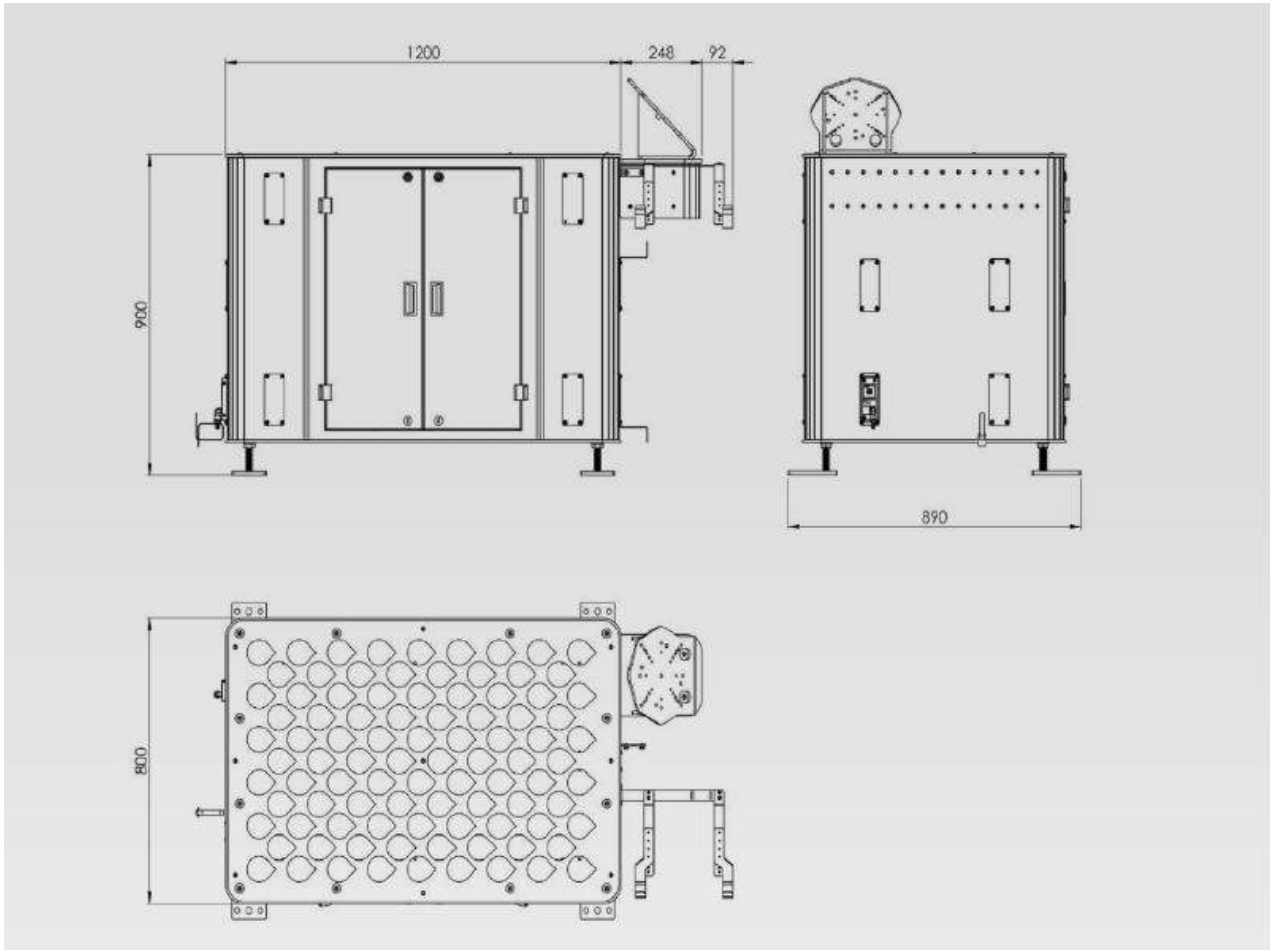

## Features

- **High ROI:** typical return on investment is less than 1 year, providing a cost-effective solution for industrial robot workstations.
- **Enhanced capacity:** the universal 2mm parts-tray with 94 spots enables automated supply to CNC machines, reducing manual labor from 8 hours to less than 1 hour, while maintaining consistent high-quality production.
- **Flexible cobot mounting:** equipped with a re-attachable mount plate, the cobot can be moved along the entire length of three working sides, ensuring 100% reach over the entire tabletop.

---

## It can also be used for the following applications:

Machine tending | Polishing | Welding | Bin Picking | Assembly | Measurement

## Product Order Overview

ED-1000-T	EasyDesk Tray	H: 902 mm, W: 890 mm, L: 1550 mm, Wt: 330 kg, T-Pad bracket, Compartment for controller, 45° angle for robot, DT-1000-04 included
